Work Authorization: Eligible to work in Germany and ready to relocate.

PROFESSIONAL SUMMARY

Cloud-Native Software Engineer with 3+ years of expertise in **Kubernetes**, **microservices**, and **enterprise SaaS development**, currently advancing IBM's automation solutions and civic-tech research. Proven ability to design scalable cloud architectures (**IBM CloudPak**, **OpenShift**), optimize deployment pipelines (50% faster builds), and lead full-stack initiatives (**Flutter**, **CIVITAS**). Combines technical rigor (**Java/Spring**, **Kafka**, **DevOps**) with cross-functional collaboration, bridging industry R&D (IBM Germany) and applied academia (Bamberg University). Passionate about open-source contributions and sustainable tech solutions.

PROFESSIONAL EXPERIENCE

IBM Germany Research & Development Software Developer

Böblingen, DE
2025–Present

- **Design** and **maintain** IBM CloudPak for Business Automation solutions, leveraging Kubernetes clusters to enable scalable SaaS product delivery.
- **Optimize** deployment pipelines for IBM's enterprise automation tools, **enhancing** system resilience and reducing downtime by 20%.
- **Collaborate** with global teams to integrate cloud-native architectures, **strengthening** interoperability across IBM's product suite.

Otto-Friedrich-University Bamberg (HIWI) Research Assistant – EXPLANYM Project (MOBI CHAIR)

Bamberg, DE
2025–Present

- **Spearhead** IT infrastructure for a multi-modal transport research initiative, refactoring a Flutter app to streamline data collection for the City of Bamberg.
- **Deploy** and **manage** CIVITAS CORE Connect on a dedicated Kubernetes instance, ensuring secure hosting of urban mobility data.
- **Coordinate** with municipal partners to align technical deliverables with sustainability goals, **bridging** academia and civic tech.

IBM INDIA PRIVATE LIMITED Software Developer

Kerala, IN
2021–2024

- **Engineered** 99.9% uptime for Kafka clusters, **reducing** deployment time by 90% and **ensuring** operational excellence.
- **Spearheaded** integration of two IBM Automation products, **boosting** compatibility by 30% and **increasing** reliability by 70%.
- **Developed** API backend with 100% code coverage, **improving** response time by 60% and **aligning** teams via Open API specifications.
- **Automated** product version handoffs, **reducing** process time from 7 days to 1 day, and **enabling** seamless CloudPaks integration.
- **Optimized** build processes, **cutting** build time by 50% and **enhancing** team productivity by 30%.
- Implemented authentication and authorization mechanisms using **Keycloak** (OIDC) to secure microservices and APIs.

SPECTRUM SOFTTECH SOLUTIONS PVT. LTD Network Engineer Apprentice

Kerala, IN
2019–2019

- Automated network host configuration, reducing setup time by 90%.
- Analyzed network node reports, ensuring 95% network uptime.
- Orchestrated team efforts, improving network performance by 25%.

EDUCATION

OTTO-FRIEDRICH-UNIVERSITY BAMBERG
M. Sc. International Software Systems Science

Bamberg, BY
2024-Present

MOTILAL NEHRU NATIONAL INSTITUTE OF TECHNOLOGY
Bachelor of Technology (Computer Science and Engineering)

Allahabad, IN
2017-2021

TECHNICAL SKILLS

- Programming Languages: Java, Python, Golang
- Tools: Git, GitHub, Maven, Gradle, JUnit, Jenkins, TestNG, Mockito, NodeJs, ReactJs
- Frameworks/Technologies: **Apache Kafka, Docker, Kubernetes, RedHat OpenShift, KeyCloak (OIDC), RHEL (Linux), Vert.x, Spring**, MVC, Microservices, API, **AWS, IBM Cloud**.
- Methodologies: SDLC, Agile, Scrum
- Machine Learning: TensorFlow, YOLOv5, CNNs

CERTIFICATIONS

- AWS Certified Solutions Architect - Associate Training.
- RedHat OpenShift: DO285 (Issued: Feb 2022), DO378 (Issued: Jul 2022)
- IBM Developer Profession Level 1(Issued: Jun 20224)
